

Replayer Version 0.6

Replayer is a free media player for use during rehearsals with playback music. It's main feature is fast navigation to predefined cue points in the playback media.

Getting started

First, you create a compilation of tracks and cues once, using a wizard from within *Replayer*.

Use keyboard as remote control

Navigate to your cues

Rehearse

Rehearse

Then, using *Replayer* and your laptop computer, you can rehearse any portion of your set with ease.

Back 1 cue / Rewind

Forward 1 cue / Fast forward

Volume down

Volume up

Pause / Continue

Return to cue

Numbers:
Type a shortcut, terminate with ENTER

Fast

Use the navigation features on the numeric keypad.
